

GIVES ADDRESS ON DAIRY HUSBANDRY

E. L. Luther Holds An Enthusiastic Meeting Last Friday Night

On Friday evening the Agricultural Representative celebrated the anniversary of his arrival in Oneida county by giving a talk upon dairy husbandry at his office in the court house. The room was well filled with people. The Short Course boys made an exhibit of their work. In the general conference that followed the talk it was suggested that a silo building and loan association be formed to help farmers erect silos. This matter is being looked up and it may be that such a scheme will be presented to farmers. Between now and the time of the Farmers' Course such a plan might be well organized. It would be a grand thing if it could be done and if farmers will avail themselves of it. Silos are a tremendous saving on farms. A dairy farm can scarcely get along profitably without one. A solid concrete silo can be made by a farmer without more than seventy-five or eighty dollars actual outlay. In some cases good silos could be made of stone. There is at least one stave silo company that will sell silos on time so that they may be paid for in installments. It would be a great boost to the agricultural development of Oneida county if we could count from fifty to one hundred silos filled to the top with good silage this fall. If you are thinking of erecting a silo plan on securing your seed corn early and testing it out. Some people think that Canadian smut nose corn is a good variety for silage. But any variety that will mature and that will grow good leaves and corn will make good silage. Let's get ready for silos.

At the December session of the County board a resolution was passed asking the Agricultural Representative to get the legislature to pass a bill to allow townships to purchase pure bred dairy sires and have them for service at a specified fee in the township. The Agricultural Representative has taken the matter up and a bill is about to be reported to the legislature. It would seem that the people ought to be interested enough in this bill to warrant their writing to members of the legislature to get the bill through in time for the spring town meetings. A pure bred sire in each township in Oneida county would be of immense help to our dairy development. The whole business of more profitable cows depends upon using a pure bred sire. The people who continue to get a long with scrub sires will run in debt. The farmers who try the plan of using a pure bred sire commence to get along better and sooner or later enjoy fine farms and fine herds of splendid cattle. Pure bred sires are like pure bred seeds. One would not plant rubbish corn. Why then breed to scrub or rubbish cattle? Let's get this bill passed and get the sires this spring.

Eight boys avail themselves of the Short Course. This is of course not a large number. A large number of boys was solicited but several things conspired to keep them from attending. A good many boys are drawing wood or logs. But the eight boys are doing some fine work in stock judging, seed work, dairy work, carpentry, farm arithmetic and farm accounts and so on. In all of this work in agricultural development we must not be discouraged. A little touch here and there, doing this now and that then, reaching audiences small if need be but interested, will soon commence to show results. Already this year the seeds sent in to be tested out are much better than those of a year ago, showing a higher notion of the value of good pure seeds that will grow. People are looking around for good corn, better seed potatoes and so on. So we need to feel encouraged with the results thus far.

"VARDEN" MALE CHOIR

Scandinavian Singers Change Name Of Society.

The Scandinavian male choir of this city, formerly known as "Tuten", held their meeting at the Scandinavian Hall Feb. 2nd, and elected officers for the ensuing year. The name Tuten will be forgotten, and it is to be "Varden" henceforth. Varden signifies a fire, which in olden times was kept burning on a mountain top and was supposed to guard precious documents of the Kings. Officers were elected as follows: Musical Director, Hartvig Jentoft; President, Tom Alme; Vice Pres., L. Karlson; Cor. Sec., O. Anderson; Fin. Sec., A. Schultsrom; Treasurer, Hans Rodd. The Varden intends to give a concert in the near future, the date will be given later.

SKI ENTHUSIASTICS NUMEROUS HERE

Exhilarating Sport Has Many Followers Among Local Scandinavians

In Rhinelander this winter ski riding has been one of the favorite amusements among the Scandinavian people. In fact, the sport has been more popular here this season than ever before. It is a frequent sight to see groups of ski enthusiasts out for long trips across the country and it is remarkable the rapid progress which can be made by this method of locomotion. Many ski parties are accomplished with a single stride and the riders cut up the miles with almost express train speed.

Several of the local ski riders have become exceedingly efficient in the art of jumping and some are bounding long distance leaps have been made here. What is needed in this city is a ski slide where devotees of the pastime would have an opportunity to more thoroughly enjoy themselves and become skilled in jumping. Such a slide could be erected at a not very large cost and with a small contribution from each interested individual the expense would not be noticed. There are several fine locations on the nearby hills for a slide, one of which is the old toboggan course on the ridge way. Perhaps by another year the Scandinavian people of the city will act on this suggestion.

Saturday and Sunday are the days of the big national ski tournament in Ironwood and as the time draws near more and more Rhinelander people are arranging to attend. Last year at the Ironwood tournament about forty Rhinelander residents were present and it is believed that at least double this number from here will attend the national tournament.

WAREHOUSE FIRE

T. C. Wood Hardware Company Has Loss Last Friday

Fire in the T. C. Wood Hardware company's warehouse on Stevens St. at noon Friday did considerable damage to building and stock. The blaze was due to a gas explosion while workmen were making repairs to the main. In order to fix a leak it was necessary to thaw out the frozen ground with fire which resulted in the explosion. Timely arrival of the department prevented a more serious loss. Mr. Wood is not prepared to state the amount of the damage.

DEDICATE NEW SCHOOL

The new school building at Tripoli will be dedicated Saturday afternoon February 22. A program fitting the occasion will be held.

RHINELANDER ON MERCHANTS' ROUTE

Milwaukee Business Men Will Visit This City Some Time In June

Rhinelander will be included in the itinerary of the Milwaukee Merchants and Manufacturers' Association's annual trade tour next June. These trips are made yearly for the purpose of giving the manufacturers and wholesalers of the Cream City an opportunity to meet the trade, talk shop and become better acquainted with the business people of the territory covered. The association travels in luxuriant style, a special train of Pullmans being at their disposal. The members are a jolly bunch and wherever the special stops, distribute good cheer and a shower of souvenirs.

According to present plans the association will spend a night in this city. A reception of some kind should be arranged in order to show the visitors that Rhinelander is a live spot on the map.

The tour will probably be made the second week of June although the date has not fully been decided.

Starting Monday from Milwaukee the train will stop the first day at Fort Atkinson, Watertown, Jefferson and Ford du Lac. Next day the cities of the Fox River valley will be visited, the stop for the night being at Ripon. On Wednesday Princeton and the towns along that line will receive visits, the day being concluded at Stevens Point. Thursday's trip will take the party along the Green Bay road from Amherst Junction to New London, thence to Horntown and then a run without stop to Wausau, where the night will be spent. Friday's visits will be made to Merrill, Tomahawk, Eagle River and Rhinelander. Most of Saturday forenoon will be devoted to Antigo and the afternoon will be given to Birnamwood, Wittenberg, Tigerton and Clintonville. Saturday night will be spent at Shawano and straightaway run will be had from there to Milwaukee Sunday morning.

DIAMOND DRILLS NEAR CONOVER

Carpenter Interests Are Busy Exploring New Iron Ore Beds

For the past two months, one of the diamond drilling outfits of the F. L. Carpenter interests has been sinking a great number of holes in an eighty acre tract located between the railroad and the Wisconsin river south of Conover giving that territory a thorough test, states the Vilas County News. For the past two weeks the drillers have been sinking new shafts at an angle to the old holes.

It is said, according to the News, that there are two of Carpenter's outfits at work drilling east from Mercer in Iron county. In the meantime there is an increased activity in real estate circles throughout the entire north and west half of Vilas county.

Another concern from Pittsburg adds the News, is now in the field with a drilling outfit and is sinking a number of test holes between Dam and Sand lakes, twelve miles southwesterly from Eagle River. This company has been operating in that vicinity for the past six weeks.

W. C. Rogers and A. B. McVay of Pittsburg are the representatives of the grounds watching the operations.

DOUGH MIXING MACHINE

A dough mixing machine of the latest design has been installed in the Kirk bakery. This machine does the work of two men and will enable the bakery to increase its bread output.

GLEVER VAUDEVILLE ACTS

Valetic Is Getting Some First Class Attractions

Holman, the human frog, was the vaudeville attraction at the Majestic four nights last week ending Sunday. Holman is about as limber as a snake and the various contortions he assumes are amazing. His act is a decided novelty.

"The College Boy and the Chinaman" held the Majestic boards this week and gave entire satisfaction. The act is most amusing.

The pictures being shown at the Majestic this week are the very best that Manager H. C. Zander can procure. The subjects are up-to-date being some of the latest comedies, dramas and photo-plays from the big film houses.

ZABEL SPEAKS TO LARGE AUDIENCE

Former Milwaukee District Attorney Makes Stirring Address Here

The audience which gathered at the Congregational church last Sunday afternoon to hear former District Attorney Zabel of Milwaukee was the largest that has yet assembled at any vesper service of the present season. Mr. Zabel's subject was "How Shall We Handle the Social Evil?" The address was marked by terse statement and telling argument from beginning to end. There was no ranting against evil, but an awful marshalling of facts that could not help but carry conviction. There were cleverness of argument and freshness of presentation that were dramatic in their effect. For example, in his argument against segregation of vice in cities, he told how he had been approached by a committee of Milwaukee citizens, after he had announced, as district attorney, that he was going to clean up the red light district. This committee pleaded with him in behalf of the city, saying that it was a bad section of the city. He asked them their answer was "In the Italian district, or perhaps in the Polish district." He replied that if vice were to be segregated in any section of Milwaukee he should see to it that it would be in the most fashionable part of the city, where there were small families, and where the children did not have to play in the streets; in other words where segregation would do the least harm, for its greatest danger is to the rising generation, the children in the immediate neighborhood.

The speaker argued very convincingly that segregation is an utter impossibility, a mere makeshift; he argued that it is contrary both to the laws of Wisconsin and the inexorable laws of nature; he showed that to segregate vice meant virtually to give it a sort of legal standing, a public "O. K."

Mr. Zabel emphasized the tremendous importance of moral education for the young child, and its protection at any cost and inconveniences. The speaker was given close attention throughout his address, and the impression that he left was most favorable.

NEW GROCERY STORE

Maurice Anderson is contemplating embarking in the grocery business in this city. He has not yet decided upon a location for his store but it will no doubt be on Brown street.

Mr. Anderson has been employed by his father, Hans Anderson, for some time past and is experienced in the grocery trade. He is an enterprising young man and should succeed.

RETURNS FROM UNIVERSITY

Bid Rathbun returned from Mall son, Wednesday after spending three months at Wisconsin University during his school. He has resumed his position with the Rhinelander Creamery & Produce company.

BRAVE ENGINEER SAVES MANY LIVES

Matt Donohue Sticks To His Post and Prevents Terrible Disaster

Matt Donohue of Antigo is a brave engineer. With his engine near the brink of a precipice Donohue stuck to his post and by his coolness and heroism saved the lives of scores of passengers in the coaches behind. For Donohue's bravery last Thursday night in preventing his train from running onto a burning bridge three miles south of Woodruff, the Northwestern railway company owes him a debt of gratitude which can never be repaid. On ly to Donohue do the people who were on the train owe their lives for had he not succeeded in stopping his locomotive just when he did the train would have crashed to the bottom of the ravine and the death loss would have been appalling.

Engineer Donohue was pulling limited train 112 south bound due to Rhinelander at 11 o'clock P. M. When the train came to a sudden stop the passengers little realized that they had had such a narrow escape from being ushered into eternity. As is always the case several Rhinelander people were passengers on the train, returning from points north.

The story of Engineer Donohue's heroic deed is best told in the Antigo Journal.

With a burning bridge just ahead Mr. Donohue stuck to his engine and then watched his engine track and then watched his engine slowly near the burning bridge. His engine failed to stop, his train, were clatter and lives of many passengers would have been doomed. The emergency took hold quickly. The train which had been moving at fifty miles an hour gradually slowed down. With just ten feet between his engine and the burning structure, Donohue finally stepped down from his cab and found the burning bridge just ahead on the verge of a collapse.

Had the train gone on the bridge the structure would have collapsed from the weight and the train would have been precipitated into the river below. Mr. Donohue saw the fire sometime before he discovered that it was the bridge that was in flames. The track just north of the bridge rounds a curve and while able to see a conflagration Mr. Donohue believed that it was a fire in the woods.

When he did finally discover that the bridge was in flames he did everything in his power to save his train and the lives of those in the cars behind. His coolness and brave are being highly complimented by the officials of the Ashland division.

After the train had been brought to a stop the train crew put out the flames and then the train went back to Woodruff where the passengers were fed. Train Number 111 was held at Rhinelander until the bridge was repaired.

A. Olson, fireman of the threatened train is nursing slight injuries received in jumping from his engine.

SUPT. TOBEY HERE SATURDAY

Will Talk On Medical Inspection Of Schools

Supt. Tobey of Wausau will give a lecture Saturday evening at the City Hall on Medical Inspection of Schools. Mr. Tobey has spent much thought and time on this subject and is prepared to show by statistics that it pays in dollars and cents to have such an inspection, to say nothing of the suffering and expense caused to scene of many public meetings and parents and children by contagious diseases. The city authorities are especially urged to come out and hear what Supt. Tobey has to say. Every one interested is also invited to come. Supt. Tobey begins at eight o'clock.

MRS. HERBERT BISHOP

Death Occurs After Short Illness At Thorp, Wisconsin

An unusually sad affair occurred at the home of Mitchell Bishop near Thorp, Wis., during the past week when Mrs. Herbert Bishop departed this life after a short illness, having been preceded only one day by her infant child five days old.

Myrtle Morton was married to Herbert Bishop at Wautoma, Wis., December 24, 1911, and died of pneumonia February 8, 1913. She was 28 years of age. The funeral service was held in the Methodist church in Thorp, Rev. Kneen of Stanley officiating, interment being made in Thorp cemetery.

She leaves a husband, mother, four sisters and five brothers and many friends.

The relatives who attended the funeral were four sisters: Mrs. Hazen of Wautoma, Mrs. Bibby and Mrs. Keep of Rhinelander, Mrs. John Hall of Larson, who was accompanied by her husband and two brothers, Mylus Morton of Hancock and Ernest Morton of Wautoma.

PARK FALLS WINS FROM LOCAL HIGHS

Game In This City Saturday Night Is Very Slow—Score Is 26 To 17

In one of the slowest basket ball contests played in Rhinelander this season, the Park Falls High school quintette won from the local highs by the score of 26 to 17 at the Armory Saturday evening.

At the end of the first half the home boys were ahead, 10 and 11 being the score. Bonnie, guard on the Rhinelander team, injured himself at the beginning of the last half and this seriously handicapped the boys. From then on the visitors took a decided lead.

The game was witnessed by a large audience. Rhinelander Highs may play Microqua here next Friday.

Game With Phillips

Co. L basket shooters will meet the Phillips team for the second time this year in that city next Saturday night. The Militia boys are in fine fettle and expect to "slip one over" on the Price county bunch. Several rooters from this city will attend the game.

On Saturday night February 22, the Ladysmith team, one of the star basket ball aggregations in northern Wisconsin, will play Company L in this city. This bids fair to be a game full of spice and interest.

NEW ARMORY FLOOR

Company L Will Give Easter Ball To Defray Expense

A new floor is to be placed in the Armory and in order to meet the expense of the same Company L will give a grand military ball on Monday evening March 24, the first dance in this city after Easter. It will be an elaborate affair and the price of tickets will be either \$2.00 or \$2.50, including refreshments. Music will be furnished by the Military orchestra.

As the money received from the ball is to be used in installing a new floor in the Armory the people of Rhinelander are urged to do everything possible to help the good cause. If you do not dance buy a ticket anyway and in this way everyone will assist in making the undertaking a success. Since the Armory was built it has been the scene of many public meetings and other public affairs—no charge ever being made for use of the building on such occasions. The citizens now have an opportunity to show their appreciation of the liberality of Company L by patronizing the big Easter ball. Boost for the new floor!!

FIRST SHOWING OF LADIES' AND MISSES' SUITS AND COATS FOR SPRING 1913

Those who claim that nothing in Rhinelander is good enough or cheap enough for them to wear, will fully justify themselves by coming to our store and inspecting the NEW and WONDERFUL LINE OF SPRING SUITS and COATS. The styles are absolutely correct and the prices are by far LOWER than you are able to get outside of "Jacobson's" Store.

We will prove to you that our LOW price of \$9.85 for 1913 SUITS is at least 25% cheaper than Catalogue prices. OUR SUITS at \$14.95 are fully as good and better than catalogue houses want \$20.00 for.

OUR \$19.85, \$22.50 and \$25.00 SUITS may be easily compared with others who ask \$35.00 and \$40.00 and won't give you the make, workmanship, and style that we are giving you—besides. We guarantee to give you a perfect fit no matter how much alteration it requires. We guarantee a perfect fit to ALL or NO SALE.

Attend the Great Sale on Laces and Embroideries

We faithfully promise you that never before has such a magnificent line of goods been offered to the public at such LOW PRICES.

Our line this season surpasses any previous showing, and the prices are simply astonishing.

NEW LINE OF HOUSE DRESSES for 1913. Come in and pick out a couple of Dresses at ONE HALF the price you are in the habit of paying. We can fit you all.

1913—OUR 1913 LINE OF MUSLIN UNDERWEAR IS HERE for your early selection. Princess Slips, Skirts, Gowns, Corset Covers, Drawers, etc., at the right prices.

We Have the Exclusive Agency in Oneida County for the well known "Nemo" and "Warner's" Rust Proof Corsets

No matter what your size or requirements may be, you are always sure of finding HERE exactly the style and kind you are looking for. We wish to call your particular attention to the famous "WARNER'S" RUST PROOF CORSETS, you will find them without a doubt the BEST and MOST COMFORTABLE corset you ever wore. Prices from one to three dollars. We carry all sizes in stock in all the new models.

Try a pair and enjoy the comforts of an Up-to-Date Corset

Jacobson Dry Goods Co. THE BIGGEST STORE WITH THE SMALLEST PRICES

EVENTS OF WEEK IN OTHER TOWNS

Items Of More Or Less Importance Boiled Down From Neighboring Exchanges

Shawano—

The large barn on the farm of Charles Melhorn, five miles from this city, was destroyed by fire Friday. All the stock, a fine team and about twenty-five head of cattle, and all the poultry were burned. The loss is heavy. Mr. Melhorn and family were awakened by neighbors and they barely saved their home from the flames.

Merrill—

Max Schief, 17 years old, while engaged in assisting his father in logging and while loading a sleigh load of logs, was accidentally killed. A log came back from the skids and crushed the young man. Death followed very shortly. He was a son of Herman Schief, a prominent farmer of Lincoln county.

Ironwood—

The proposed increase in wages promised at the first of the year by the Steel corporation has been in effect two weeks and many thousands of the employees are beneficiaries of the plan, including the workmen of the Oliver Mining company in this

city. The laborers are the ones who will benefit chiefly, the company believing that with the increase in the cost of living their wages were too small and it was decided that they should be given the greatest advance.

Tomahawk—

Free mail delivery is now practically assured for this city. It is probable that the service will be inaugurated March 1 and two carriers will be employed. Deliveries will be made once daily to residences and three times to business places. Post office Inspector Kittredge has favorably recommended that the service be installed.

Ashland—

Bayfield has a naval militia making in all three companies on Chequamegon Bay and a fourth one will soon be mustered in Ashland, which will make the entire four authorized by the state. The Bayfield company was mustered in with fifty-one members with John Inglis as Lieutenant Commander. Verder is now in Washington working for a training ship for the Wisconsin naval militia.

Stevens Point—

A temporary injunction, restraining the city officers from issuing orders in payment of the water tax in parochial schools, has been issued by G. L. Park, court commissioner, on the application of Alexander Wallace. While switching in the yards in this city, D. M. Graham, a Soo line freight brakeman, was run over and instantly killed.

Marinette—

The special survey of the Menominee river harbor is now being made under the direction of the Milwaukee engineer's office. The survey calls for a 300-foot channel to the lower bridge and a 300-foot channel, twenty-one and one-half feet deep to the Marinette municipal dock. In front of the dock a turning basin 650 feet wide is planned. The improvements will give Marinette and Menominee one of the best harbors on the lakes.

Crandon—

Sam Sturdevant, the Indian who last fall escaped from Under-Sheriff Daskam, was recaptured near Enterprise by Sheriff Georgeson and Under-Sheriff White. Since his escape the red skin had made his haunts around Enterprise and Pelican Lake. When arrested he was in his topee with three other Indians and was taken by surprise by the officers.

Grand Rapids—

Dr. J. E. Beattie, a prominent veterinary surgeon of this city, was found dead on the railroad right-of-way near Port Edwards Wednesday. His death seemed to have been caused by exposure and his body was found in a frozen condition. The temperature the previous night was 25 degrees below zero.—Two unknown

men were found frozen to death in a box car on a siding near the Chicago, Milwaukee & St. Paul depot. The identity of the men is unknown. It is presumed that they sought shelter from the extreme cold weather and froze to death while asleep.

Ladysmith—

J. J. Haas of this city will tell you that shaking hands is dangerous. Through this form of greeting he came near losing his right hand by blood poisoning. In shaking hands it seems that Mr. Haas's enthusiastic friend inflicted a trifling scratch on one of Mr. Haas's fingers which was unnoticed until the digit began to swell and get painful. The swelling extended to the hand and the pain became excruciating. Only through careful medical attention did Mr. Haas save his hand from amputation.

Eagle River—

If the factory of the Eagle River Knitting Works is to remain in Eagle River it is necessary that more help be secured from some source at once. Sixty girls are needed by the concern, the present pay roll numbering but sixteen girls, not half enough to take care of the plant's increased business. For over one year the industry has been located in this city and during that time the only complaint which the management has made has been lack of help.

SAW MILL MEN WANTED

We need setters, riders, tall sawyers, edgers, trimmers, green and dry lumber graders, for the coming sawing season.

Thief River Falls Lumber Co., Thief River Falls, Minnesota. F13-27

Matt Kristensen returned Saturday from Chicago where he was in attendance at the big automobile show.

School Children's Teeth

In a very few years children's teeth will be looked after in the public schools. Some cities are doing it now. Your child cannot wait for this time. Look to their needs at once by having

Dr. A. R. McArthur clean and put their teeth in perfect condition.

Modern educators realize the necessity of good teeth in school children.

WILL ALSO RAISE HODAGS (Aerogram to the News)

Plum Lake Sta., Feb. 3.—It is reported here that Gene Shepard of Rhinelander has disposed of his famous herd of Hodags to the state board of forestry as an addition to the game preserve which State Forester Griffith plans to open near here. Besides Hodags from Wisconsin, elk from Wyoming, moose from Minnesota and carp from Baraboo, the preserve will also contain mice from Africa. (The mice will destroy the antlers of the elk and moose and horns of the Hodags during shedding season.) From 8,000 to 10,000 acres of arid (?) land around Plum Lake will be preserved—likewise Shepard's family of Hodags.—Vilas County News.

To The Public

I Have Opened a **FILING SHOP** At Gibson's Blacksmith Shop, Saws set, filed and repaired; knives and shears also ground. **A. E. HALL**

NORTH CRANDON

F. C. Strope of Rhinelander was here this week looking after potato shipments for the Rhinelander Produce & Commission Company.

Mr. and Mrs. C. J. Rasmussen are the happy parents of a baby boy. A pool room will be opened in the building vacated by Mr. Collins by L. Paris of Crandon.

Albert Netzel of Crandon transacted business in the city Thursday. C. J. Collins is now occupying the Masbaum building.

The village has a good live newspaper in the Northern Citizen. It prints all the news and keeps the people posted.

C. F. Harback is now employed as telegraph operator by the Soo line in North Crandon. He has moved his family here.

NEW BAKER COMING

Mr. Day expects to sell his bakery here and move to Rhinelander in the near future, having been made what he considers a very advantageous offer from parties in that city to engage in business there. He formerly resided in that city, coming here ten years ago. Mr. Day enjoys the respect and confidence of the people of Crandon and all will regret his departure.—Crandon Republican.

CASSIAN (Too late for last week)

Mrs. A. D. Barr returned from the hospital the first of last week. John Selmer was a visitor in Heatford Jct. Saturday evening and Sunday. Mrs. E. Erickson of Rhinelander is caring for her daughter, Mrs. Louie Olson, who has been on the sick list the past few days. Miss Martha Murray has an attack of influenza. Alvin Buslett returned to his work at O. Miller's the latter part of last week.

The masquerade given by the Grange Saturday evening was well attended, considering the cold weather. Those receiving prizes were: Geo. Garber, C. B. Taylor, Chester Masson, and Sybil Smith. The society cleared about \$10.00.

COMET DUE NEXT MONTH

That another comet is due to approach the earth is the information given out by Prof. P. F. Leavenworth of the astronomy department of Minneapolis university. Whether the comet will come as close as Halley's or whether the earth will pass through the tail of the heavenly "hobo" was not decided. The comet is due next month. "We can't say it will hit the earth," said Prof. Leavenworth. "We can only hope so. It would be very interesting whether it would result in a shower of meteors or something more serious we do not know, as we have never encountered one."

C. B. Eaton, a resident of Eagle River, has received the appointment of Indian Farmer on a reservation near St. Cloud, Minn.

MRS. WM. ARCHER

Tells Mothers What To Do For Delicate Children.

"My fourteen-year-old daughter was very thin and delicate. She had a bad cough so that I became very much alarmed about her health. She was nervous and did not sleep well, had very little appetite and doctors did not help her. Having heard so much about Vinol, I decided to give it a trial. It has helped her wonderfully. She can sleep all night now without coughing once; in fact, her cough is gone. Her appetite is greatly improved and she has gained in weight. Vinol is a wonderful medicine, and I will always keep it in the house. I wish every mother knew what Vinol will do for delicate children." Mrs. Wm. Archer, 223 Broadway, Long Branch, N. J.

This delicious cod liver and iron preparation without oil is a wonderful body-builder and strengthener for both young and old. We promise to give back your money in every such case where Vinol does not benefit. This shows our faith in Vinol. P. S. If you have former try our Pure Food. We guarantee it. John J. Reardon Druggist, Rhinelander, Wis.

A CLOSE INSPECTION OF OUR STOCK

Will reveal its superior quality and convince you of the wide difference that really exists in lumber. You may imagine that lumber is all the same, but you were never more mistaken in your life, if you imagine that. There's as much difference between two boards that pass for the same grade as there is between a plug and a thoroughbred.

We invite a critical examination of our stock, simply because we know it to be much better than the average. **QUALITY:** That's our hobby. When we sell you a bill of lumber we want to know positively that you will be satisfied that you've got the best your money will buy, and will come to us when you want something else in building material.

RHINELANDER LUMBER & COAL CO.

THE CITY IN BRIEF

Fred Ricker returned to Brantwood, Monday.

John Swomia of Jennings was in the city Friday.

Herman Schroeder was down from Arbor Vitae Tuesday.

C. E. Artell returned Monday from his home in Manawa.

William McLaughlin is ill at his home on the south side.

Mrs. Phillips of Woodruff visited at the Laduke home this week.

Ed. Olmstead of Lac du Flambeau was in the city Tuesday.

John H. Bellman of Hortonville spent Sunday in Rhinelander.

Harold and Willard Morgan of Hawkins were in the city Friday.

Miss Mabel White returned to Jennings Monday after a two days visit at her home here.

W. H. Gilligan, Sr., returned to Brantwood, Monday, after spending Sunday at home here.

Patrick McDermott has returned from Bundy where he has spent the winter in the woods.

B. M. McCarey, a former Northwestern passenger conductor was in the city a few hours Friday morning. The McCarey family is spending the winter in Chicago.

Mrs. James Olmstead of Lac du Flambeau attended the funeral of Mrs. James John in this city Sunday.

Alexander Brown returned Saturday from Minneapolis where he ordered a new supply of cigar lighters.

Miss Ella Rusch left for her home in Portage Saturday after a visit with Rhinelander friends.

We have a nice lot of dry maple and birch wood at reasonable prices. Phone 72. Rhinelander Builders Supply Co.

Ray Slossen, who is attending Marquette University, was in the city this week visiting his parents, Mr. and Mrs. E. J. Slossen.

For a sprain you will find Chamberlain's Liniment excellent. It allays the pain, removes the soreness and soon restores the parts to a healthy condition. 25 and 50 cent bottles for sale by.

William Secard and Miss Mary Schlottke returned Saturday from Merrill where they were guests at the home of his parents for two weeks. Mr. Secard left Tuesday for Milwaukee on business.

Salesmen Wanted:—To look after our interest in Oneida and adjacent counties. Salary or commission. Address, Lincoln Oil Co., Cleveland, O. F13

When you want engraved cards call at the New North office.

Mrs. James Thompson left Saturday for Wausau where she will remain two weeks with friends and then go to Davenport, Iowa, for an extended visit with her parents.

The father of Robert Hampton, a former switchman in the Northwestern yards here, died a few days ago at his home in Ironwood. Mr. Hampton was a native of Ireland and a prominent resident of the Michigan city.

A. Martinson, who has for the last three years been manager of the Preston Music company's business in this city, has embarked in the music business for himself, having discontinued his affiliation with the Preston house.

Lost—A lady's gold watch and pin Saturday morning somewhere between the Martin flats and Goldberg's feed store. Watch has closed case and contains owner's photograph. Reward if returned to the Goldberg's feed store.

Mrs. Andre Begin went to Rhinelander today to meet her husband. Mr. Begin is on his way home from Regina, Saskatchewan, Canada, where he has been the past five months visiting his parents, Mr. and Mrs. Alfred Begin.—Article Journal.

There is no better medicine made for colds than Chamberlain's Cough Remedy. It acts on nature's plan, relieves the lungs, opens the secretions, aids expectoration, and restores the system to a healthy condition. For sale by

All Dealers.

The New North job department filled an order this week for large display bills from D. A. Pieser, the Minocqua merchant, announcing a closing out sale at Mr. Pieser's store. Mr. Pieser will sell his entire stock at a great reduction as he intends to leave Minocqua.

CHICHESTER SPILLS

DIAMOND BRAND
Beware of Counterfeits.
Refuse all Substitutes.

LADIES!
All the world is for CHICHESTER'S DIAMOND BRAND PILLS in 100 and 500 box sizes, sealed with Blue Ribbon. Take no other. Buy of your Druggist, or send for a box of 100 to J. J. Reardon, 111 N. 1st St., St. Paul, Minn. Sold by all Druggists.

Archie McAllister of Rhinelander Sunday here—not an unusual thing for Archie to do. It is said that he is deeply engrossed in the study of that law of physics—the attraction of bodies, one to another—and that under competent tutelage he has become convinced of the soundness of that law.—Iron River Pioneer.

Read the advertisement of the Goldberg feed store in this issue. The prices will appeal to you.

P. F. Ryan, chairman of the town of Mercer, paid a fine of \$50 and costs, amounting to \$2.50 in municipal court Monday after having plead guilty to charge of selling liquor without a license. The complaint against him was made by John Pietzka, town clerk of Mercer and the illegal selling is alleged to have taken place between July 4th and Aug. 16, 1912.—Hurley Miner.

This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow. Chamberlain's Cough Remedy is famous for its cures, and is pleasant and safe to take. For sale by

All Dealers.

Mrs. W. W. Carr reports that since Nov. 26 her seventeen hens have averaged from seven to eight eggs a day. The hens have laid from four to eleven a day. One hen wanted to set about four weeks ago and was granted that request. She brought off one chick. It is probable that the eggs were chilled in some way. From this record it would seem that it would pay to keep a small flock of chickens in town.

PAYS HER FINE
One of the female inmates of the Woodruff resort, who was arrested last week and sent to the county jail in lieu of paying a fine, was released Saturday, having secured the money with which to pay her fine. The girl did not loiter in this city and left on the first train for Ironwood.

Mabel Chapter No. 181—O. E. S.
Meets every first and third Wednesday of each month in Masonic Hall at 8 o'clock. Visiting members welcome.

By order of the W. M.
LAURA E. SCOTT, Sect'y.

REPORT RESULTS OF FIELD STUDY

Supts' Committee On Report Of Training School For Public Service

We, your committee, appointed to report upon the Preliminary report of the Results of Field Study Reported to the State Board of Public Affairs by the Training School for Public Service, after careful examination of this preliminary report and of information gathered from exact conversation with those superintendents whose superintendency districts were investigated, do report upon the Preliminary Report in general but more particularly upon the county superintendency phase, as follows:

1. The school men of Wisconsin welcome at any time a thorough and comprehensive investigation of the state of affairs in their public schools directed toward raising the efficiency of said schools.

2. Wisconsin is well aware of the many educational problems of a serious and perplexing nature. These problems have not been ignored but have been frankly faced, intelligently studied and solutions proposed by our own people. The school system is constantly changing because social conditions are changing, hence we shall always have educational problems.

3. Investigation of school problems, to be of value, should, we feel, be conducted by men of national reputation as educators, men of balance and judgment and experience who would give to us a comprehensive and properly balanced judgment of our educational system.

4. It should be borne in mind that aside from the head of the investigating committee and his assistant statistician who are expert accountants the members of this committee are men who are young in the business of education, and are novices in this sort of investigation, and are students, if we are properly informed, in the Bureau of Research on their first piece of practice work. The work of this committee shows their unfamiliarity with country schools and country school conditions.

5. This work of investigation was carried on in fewer than one-half of the counties of the state. In a number of the counties visited visits were extremely brief, sometimes scarcely more than the period between trains. We submit to fair-minded people that an attempt to attach any serious weight to the results of such investigation is to over dignify it.

6. The most thorough investigation made was in relation to financial affairs, particularly in three centers in the North, namely, in the regions where the township system was just going out of existence through a change in the law.

b. In a majority of cases where the reader of this report would be led to believe that deductions had been drawn from numerous and typical cases the instances cited in the report were not deductions whatsoever, but extreme instances of their kind.

6. We are not questioning the motives of the State Board of Public Affairs, nor of the Bureau of Municipal Research.

Susceptibility to colds, sore throats, tonsillitis and such, indicate impoverished vitality—lack of reserve strength to weather changing seasons.

A spoonful of SCOTT'S EMULSION after each meal starts healthy body-action like a small match kindles a great fire—and more: it makes rich, healthy, active blood—fortifies the tissues, and stimulates the appetite—it makes sound body-strength.

SCOTT'S EMULSION is the purest cod liver oil, made cream-like and palatable without alcohol or drug—the quintessence of purity.

Reject imitations they are impostors for profit.

SCOTT & BOWNE, New York, N. Y. 11-38

Comparative Digestibility of Food

Made with different Baking Powders

From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder:

100 Per Cent. Digested

Bread made with phosphate powder:

68 1/4 Per Cent. Digested

Bread made with alum powder:

67 3/4 Per Cent. Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.

Principal Research. We merely speak with respect to the efficiency of the work done and the conditions under which it was done and express our judgment of its value.

7. We regard it as deplorable from the point of view of public welfare and the fair name of our state that the results of this investigation were not first given to the legislature and judiciously handled by that body of representative citizens, but on the contrary it was spread broadcast not only in the State of Wisconsin but over the country at large long before the legislature met. Newspapers and educational journals all over the United States have as a result pictured a sorry condition of Wisconsin schools which we feel does not exist.

Signed:
GEO. A. BASSFORD, Ch'n.
G. J. ZIMMERMAN,
L. S. CHENEY.

Do you know that more real danger lurks in a common cold than in any other of the minor ailments? The safe way is to take Chamberlain's Cough Remedy, a thoroughly reliable preparation, and rid yourself of the cold as quickly as possible. This remedy is for sale by

All Dealers.

WOODRUFF

Miss Johanna Hegg of Arbor Vitae spent Sunday at the Lemna home. Thos. White returned Saturday after having spent the winter at Melford.

Miss Helen Glendinning is numbered among the sick and was unable to teach last week. Miss Ada Lemna substituted for her.

Donald McPhail of Wausau who has been visiting relatives here for the past week, left Monday for the Forest reserve where he expects to work for the present.

The marriage of Miss Bernice Scott and Ralph Zenter will take place at the Zenter home in Minocqua, Thursday afternoon. Invitations have been issued for the occasion.

Mrs. N. H. Hillis returned from Ashland Sunday night where she spent a week visiting Mr. Hillis. Friends of Mr. Hillis were pained to learn that it was necessary to amputate his leg.

A number of people enjoyed a pleasant evening at the Mudtke home Saturday evening.

The south bound limited had a narrow escape from a bad wreck Thursday night on account of the thoroughfare bridge having been partially burned. The train was obliged to remain here all night.

NOTICE

I am handling upright, grand and player pianos and I am in no way connected with the Preston Music House.

A. MARTINSON.

GOODNOW
Mr. Bube was in Minocqua on business, the last of the week.

Mrs. C. Steele and children returned Thursday after a two weeks visit with relatives in Valley Junction.

The people of Goodnow and Harshaw met at Mr. Thorson's home Saturday evening for a social time. Dancing was the chief amusement and refreshments were served. Every one reports a good time.

Mr. and Mrs. C. Strassman spent Sunday with friends in Merrill.

Miss Laura Jensen was a guest of Elmer Shaw and family over Sunday.

SAVES BARN FROM FIRE

Had it not been for the timely action of Mrs. Peter Laporte in summoning the fire department the barn of Herman Cease would have been destroyed last Thursday.

The blaze started from an overheated stove in the building. Mrs. Laporte, who lives nearby, saw the flames shooting out through the roof. She lost no time in giving the alarm and the department quickly responded. Not only did her promptness save the Cease barn but also prevented the fire from spreading to the Laporte barn in which the missionary's horses were housed.

ADVERTISING RATES.
Display advertisement—For a contract of three months or more, ten cents per column inch will be charged for each insertion. For a shorter time higher rates will be charged.
In addition to the above, all composition in display ads in excess of three minutes per inch will be charged at the rate of thirty cents per hour.
READING NOTICES.
Reading notices will be charged at ten cents per line for the first insertion and five cents per line for each subsequent insertion.
All notices will be charged at regular rates except notices of church service. Paid announcements for churches will be charged at half rates.

If you wish to know what the officials of the city of Rhinelander are doing, you must take the New North. It is the official city paper. It is also the only official county paper for Oneida county. Know what is going on in your city and county.

It is useless for candidates to ask credit at this office. Pay when you order the work done. You will be better satisfied and so will we. Political debts are not easily collected.

A bloody battle is going on in Mexico city between President Madero and General Diaz for possession of this capital city. It is said the fighting is without precedent.

The two young legislators who were refused admittance at the secret session of the regents of the University of Wisconsin, the other day will be good men to introduce legislation for open meetings of that august body.

The fact that twenty senators voted against McGovern last week, with others absent that would have voted against him had they been present, has given rise to considerable impeachment talk since it requires just 22 senators to convict on impeachment proceedings. This talk is not taken seriously, however, by leading members.

After years of repudiation of La Follette at Washington, he has been made a member of the U. S. Senate steering committee. This does not mean that LaFollette is less progressive but it does mean the U. S. Senate is becoming more progressive.

Several bills have been introduced in the legislature the past few days against the ravages of the present forestry board in Northern Wisconsin. We will not sit still and see our lands swallowed up and used as playgrounds for the sports. We be here in forestry but not in annihilation so we shall fight for our existence. Neither should we heed anything that Griffith proposes that is not iron clad in a bill.

MRS CLEVELAND WEDS
Mrs. Grover Cleveland and Thomas Joseph Preston, Jr., were married Monday morning by President John Frier Hibben of Princeton university in Prospect, the executive residence of the university.
Because of the recent illness of Mr. Preston the wedding was private the other guests in addition to the members of the two immediate families being present were Mrs. Hibben, Mrs. Elizabeth Hibben and Andrew F. West, dean of Princeton's graduate school.

ANOTHER TAX INCREASE
Another bill has been prepared wherein the state will ask for a tax levy of one-tenth of a mill for twenty years on all taxable property in the state for the upkeep of the reserve.
Will the Antigo Journal and the Milwaukee Journal correctly figure up in dollars and cents what the increase in taxes in the two counties will amount to and then give it to their readers?
Probably they will not wonder why Rhinelander and Eagle River newspapers are opposing reforestation as it is to be in northern Wisconsin.—**WISCONSIN COUNTY NEWS.**

REQUIRE COLD STORAGE DATES
Under the law, as proposed, it shall be unlawful to place any food products in a cold storage or refrigerator warehouse unless the articles themselves, or the original package in which they are enclosed, shall be stamped with the date of the day of their storage and upon being taken out shall also bear the date of their withdrawal. Cheese is the only product to which the law does not apply and six months is the time limit set on all other food products. Other provisions are embodied in the bill calculated to improve the sanitary conditions in connection with the storage of foods.

MOTHERS' PENSION BILL
The mothers' pension bill was introduced yesterday by Assemblyman John Schmittler, Milwaukee. It is looked upon as the major Republican pledge. It follows Gov. McGovern's recommendations.
Administration is placed under the board of control which has the appointment of state child protection agents.
The following are some of the main provisions:
Recipients of state aid.
Deserted mothers of children under 16.
Deserted mothers of illegitimate children.
Mothers whose husbands are usually unable to contribute support because of mental or physical disability.
Conditions imposed:
Maximum aid \$12 per month for each child.
Each case must be thoroughly investigated.
Aid granted for only one year at a time.
Mother or custodian must remain with children five days each week including Sundays.
Detailed reports of expenditures for work, health, etc., required.

SCOTT PERISHES
Capt. Robert Falcon Scott and four of his comrades are dead—victims of the frozen south.
They reached the south pole Jan. 18, 1912, and then perished miserably in a driving blizzard on the journey back.
After attaining the pole they faced about for the return to civilization. For two months they struggled to get back to "One Ton Depot" which they had established 150 miles north of the ultimate south.
But one by one, they died on the way. Seaman died from confusion on the brain on Feb. 17. Capt. Oates died from exposure on March 17. Capt. Scott, Lieut. Bowers and Dr. Wilson died from exposure and starvation during a blizzard about March 29.
The whole world mourns the loss of these heroic victims of the terrors of the antarctic. One consolation is that before they died they achieved their aim.

MCCARTHY SHOWS HIS HAND
The recent stand of the superintendent in criticizing the report of the state board of public affairs in which rural school conditions were discussed without gloves probably accounts for the movement to introduce a bill instructing the superintendent to keep out of politics.
We understand this bill will be introduced at the instigation of Mr. Charles H. McCarthy, head of the legislative reference library. The county superintendents did not comply with the doctor's requests at their annual meeting at Madison in January and he feels it his duty to punish them. Perhaps the people of the state do not know that the head of the legislative library thinks it time that he should control legislation of this state. We believe this man a danger to Wisconsin.

WHAT REFORESTATION DOES
A few years ago a Madison woman bought a small lot on Plum lake in Vilas county—a county famous for its myriad lakes. She paid \$150, ultimately put a \$600 bungalow on the lot, so that her investment amounted to something less than \$800. But things have been happening up in Vilas county of late. In the township where her little plot is located there are 28,000 acres of land, out of which the state owns over 21,000, or 75 per cent. Now the state doesn't tax its own land, which is unlucky for the people who chose to inhabit Plum lake region, for they of course have to make up what is lost through state ownership. Hence it is not surprising perhaps that the Madison woman now finds her little property up there is not taxed on an actual valuation of \$800 which she has really put into it, but on over \$1,500—an ascension that has tended measurably to rob her of the special enthusiasm which she at first felt for the place.—**Madison Democrat.**

INITIATIVE AND REFERENDUM
There is little doubt but that the question of the initiative, referendum and the recall will be submitted to the people for final judgment at the next general election. The assembly voted for these amendments 63 to 12, and the senate is known to be strongly in favor of them.
Mr. and Mrs. Bert Prior and daughter, Inez, arrived today from northern Michigan where Mr. Prior has been employed on the South Shore road. He will take a position with the Soo line in this city.

FEE SPLITTING PROHIBITED
A step toward the prevention of unnecessary surgical operations is contemplated in a bill introduced by Assemblyman Frederick which make "fee splitting" by physicians or surgeons unlawful. A physician of but mediocre ability often gets a case where a large fee is possible providing he has the surgical ability necessary to an operation. Rather than lose the fee or run a risk of killing the patient he calls in a fellow practitioner and turns the case over with the understanding that he gets a portion of the fee for throwing the business to the operating physician.
This, it is claimed, prompts many of the less high minded in the profession to encourage unnecessary operations, often with fatal results.

U. S. MAY RUSH TROOPS TO MEXICO

Capital City Is Shaken by Cannon's Roar As Fight Goes On

Washington, D. C., Feb. 12.—President Taft and the cabinet are in accord that congress shall share the responsibility for any intervention in Mexico.
A day of conferences between the president and his advisers ended with the understanding that should conditions in the City of Mexico become much worse as to demand the landing of American troops, Mr. Taft will lay before both houses of congress the full facts of the situation in a special message.
On Wednesday every preliminary was arranged for the action which might follow such a course. Thirty-five thousand men of the army, navy and marine corps were put in readiness for movement.

Mexico City, February 12.—The struggle of Diaz to overthrow Madero resulted in the most remarkable scene ever witnessed on the western continent. Street fighting has occurred in Mexico in times past, but a battle in which the contending forces employed heavy artillery at a range frequently of less than half a mile in a densely populated city was a new and startling spectacle.
Beyond that issued by the American ambassador, practically no warning was given to noncombatants to retire to a place of safety. So as a matter of fact it was to mark the limitations of the danger zone. As the battle proceeded shells intended for the enemy four blocks away often found lodgment in houses a mile or two distant. Rifle bullets flew from the center to the circumference of the capital making safety in any quarter only a relative term.
The heaviest line of fire was easily established along Balderas street, the cannon of the opposing forces shooting across only four blocks point blank. The federals at the north end of the line used a battery of guns brought from Cuernavaca.

MOTHERS' MEETING
Nearly fifty mothers were present at a Mothers' Meeting at the South Park school. The teachers in the building, Misses McLean, Gross, Newell and Kuehnstead each made interesting talks. Supt. Colburn was present and talked on cooperation and attendance. A Mothers' Club was organized and more meetings are planned. Coffee and doughnuts were served by the teachers.

Miss Poquette of Arbor Vitae was in the city this week.

George Hilgerman returned Saturday from Chicago where he attended the auto show.

Wednesday, February 12, was the birthday of Abraham Lincoln. In Rhinelander there was no public observance of the day.

Mrs. Bibby and Mrs. Keep were called Saturday to Thorp on account of the death of their sister. They returned Tuesday.

Judging from the spring like weather today, the cold spell, which has prevailed more or less since the month began seems to have broken.

Bring your "mail order" catalogues to our store and give us a chance to undersell them. Jacobson Dry Goods Co. 12-m27.

Geo. M. Williams, Optical Specialist of Appleton will make regular visits. Next date, Feb. 21. At Commercial Hotel. Glasses to order. 16—

START MOVEMENT FOR BALL PARK

E. A. Forbes Promoting a Plan Which Appeals To Rhinelander People

E. A. Forbes is promoting a movement to purchase the old screen door factory site and convert it into a base ball park. The scheme is outlined by Mr. Forbes seems feasible and is meeting with the hearty endorsement of all whom he approaches. According to Mr. Forbes the grounds will not only be used for base ball purposes, but will serve as a public play park for children in summer and will be flooded for skating rink in winter. It is believed that the grounds can be purchased reasonably and as soon as the deal is closed work will be started toward improving the property. Free use of teams to assist in clearing the land have already been assured the promoter. The idea is to raise money with which to purchase the site and defray other necessary expenses by popular subscription. It is a plan which all public spirited citizen will be ready to enter into and no difficulty should be experienced in carrying it out.

Abraham Lincoln.
In the language of the shop, the farm, the boat, the street, or the nursery, he told the high truths that reason and religion taught, and took possession of his audience by a storm of speech, pouring upon them all the riches of his brave plebeian soul, baptizing every head anew; a man who with the people seemed more mob than they, and with kings the most imperial.—Theodore Parker.

Musical Family.
Stiggins—"Are there any musicians in your family?" Wiggins—"Rather! Why, my father is an adept at blowing his own horn, and mother is equally expert at harping on one string; maulaw has to play second fiddle, and Aunt Tabitha leads a humdrum existence; grandpa gives a solo on his nasal organ every night, without the stops; uncle spends his time wetting his whistle; Harry is fond of his pipe, and I Gerny is forever ringing the changes on her admirers."

How Empress Punished.
"The first person I saw punished in the palace at Peking was a servant girl; she had made a mistake about her majesty's socks and had brought two which were not mates. Her majesty finding that out, ordered another servant girl to slap her face ten times on each cheek. This girl did not slap. Hard enough so her majesty told the eunuch who had been slapped to slap the other. I thought that was too funny for anything and wanted to laugh the worst way, but did not dare."—Two Years in the Forbidden City, by the Princess Der Ling.

Almost Limit of Foolishness.
An old woman named Czato, who was found dead in Budapest, left a will in which she set forth that all her money, over \$5,000, should be given to her dog. The animal was handed over to the relatives, who, it is said, will contest the will. The old woman had set a room apart for her dog. It was furnished with large mirrors and antique furniture upholstered in silk. Only the dog was allowed to enter this room.

Give Bright Thoughts a Chance.
Just try, by taking a few minutes a day—if you cannot take more—to live upon the heights, to give heed to that noble and beautiful thing within you which is the real you, which wants to grow and develop. Give it a chance. Dwell with infinite things for a little while every 24 hours. And "soon the cares that infest the day will fold their tents like Arabs and silently steal away," and life will become very happy, very beautiful. Try it.—Barbara Boyd in Chicago Post.

Bear Baiting Popular Sport.
Few sports have had such a great and extended popularity as bear baiting. The Romans imported their bears from Britain, and the sport can be traced in England to the Conquest or beyond. Queen Elizabeth was so fond of the sport that, by an order in council, she prohibited "plays to be performed on Thursdays because bear baiting and such pastimes had usually been practiced."

Must Be Pretty Bad.
Guayquil is one of the vilest pests in the world, surpassing even flies, which Kipling has invested with a hideous immortality.—New York Commercial.

Conscience Inspires / Id.
A Yonkers clergyman, whose name was not made public, advertised for the owner of a man's watch lost and found in North Broadway three years ago. The minister said a recent convert of his church found the timepiece and his conscience was pricking him.

MANIAC IN GOODMAN
John Peterson Goes "Loco" In Little Lumber Village

John Peterson, a woodsman, went suddenly insane in Goodman Monday and for a short time made things lively in that otherwise peaceful little lumber town. He entered the hotel and began to kick the furniture around and was trying to topple over the stove when the officers nabbed him. He made a desperate fight before he was overpowered and locked up.

Maurice Doyle, a former Rhinelander policeman now deputy sheriff in Goodman, took Peterson to Marquette where the man was examined as to his sanity and committed to the Northern Asylum.

PERKINS-WORGIN BOUT
Will Be Pulled Off In Hurley Next Saturday Night

Billy Perkins, accompanied by his wife, leaves Friday for Hurley where he will meet Al Worgin, a Milwaukee middleweight in a ten round bout Saturday night. The Rhinelander boy is in fine trim for the match and expects to store Worgin away with little trouble. It was first planned to hold the match in this city but suitable arrangements could not be made.

On February 22 Perkins will exchange courtesies with Tony Caponi, the Italian middleweight in Hancock Mich. He will also take on an unknown in Bayfield March 17.

A committee of women of the Christian Temperance Union called and had prayer at the jail Wednesday afternoon.

Owen Ryan spent Sunday at his home in this city. Mr. Ryan is camp foreman for the Stange company of Merrill.

CRESCENT GRANGE
(By Mrs. R. J. McIntosh)

When you are down and out
And don't know what to do,
Just come to Crescent Grange
You will always find a welcome true.

Crescent has a first-class hall
With floor as smooth as glass,
And for every lad that likes to dance,
There is a winsome lass.

As for up-to-date music,
Carl and Mammie can't be beat
For when they start playing
You just can't control your feet.

And when it comes lunch time
With Mc, the coffee dishing up,
And all the smiling Grangers
Holding out their cups.

As for pickles, cakes and doughnuts,
Just look at yonder table
With Cole, Jewell, Bowles and Hahn
A dishing up as fast as they're able.

And now to the worthy master
Of all the Jewells rare,
Give us W. P. when he gets
In the chair.

And next comes our worthy chaplain
Who reads for us, our Grange prayer
And she always aims to do so
With a very solemn air.

And here sits worthy overseer Gross
Smiling short and stout,
His pleasant face will tell you that
he is right

In it when it comes to the Sauerkrut.

Now here our worthy lecturer
Comes in for her share of the fame
For to our Grange her program hour
is like
A burst of sunshine after rain.

And this brings us up to our worthy secretary
Who is generously tall and slim,
But when it comes to reading of
the minutes,
We leave that all to him.

And here sits worthy treasurer Kerber,
Like a parson saying Grace
But when it comes to counting Grange money,
He is right there in his place.

Oh, and there is our worthy staff captain,
Whom I almost forgot,
Dear little Miss Marion,
The sweetest of the lot.

Yes, and there is our worthy musician,
Clan,
Charley's little Maie,
When we are in need of Grange melodies.

Now if you want to become a Granger?
And have any fun at all,
You want to come and join at our next meeting
Down at Crescent hall.

Miss Mabel Crane of Goodman spent Saturday and Sunday with Miss Besse LaPres.

New Ideas for Handy Boys

By A. NEELY HALL

Author of "Handicraft for Handy Boys," "The Boy Craftsman," etc.

TWO STYLES OF ROLLER-SKATE SAILS.

Have you boys ever thought of the idea of making a sail for roller-skating along the sidewalk? Roller-skating sailing is almost as much fun as sailing on ice skates, and with a fair wind it is possible to spin along the pavement at a delightful speed. The common form of ice skate sails can be used for roller-skate sailing, but they should be of smaller proportion so they can be handled easily and will not take up too much space. Fig. 1 shows a boy using a square-shaped sail, and Fig. 5 shows a triangular-shaped sail. The former sail of course has the larger area, but the latter sail is easier to handle on account of being smaller. The sail shown in Fig. 2 is 3 feet wide and 5 feet long. Cut the top and bottom spars, A, 3 feet long, and the center spreader, B, 6 feet 6 inches long. Almost any light-weight, closely woven cloth that you find will do for the sail covering. Perhaps you can get an old sheet. Cut the cloth so the selvage will extend along one edge, and hem the cut edge to keep it

ted lines in Fig. 5. The sail may be tacked along spar C in the same way that the sail in Fig. 2 is fastened, or it may be lashed to the spar like regular sails are lashed (Fig. 5). For lashing the sail you must either set in metal eyelets along the edge of the sail for tapes to run through, or sew tapes directly to the cloth. In either case that edge of the sail must be reinforced by sewing a strong piece to it (Fig. 7). To the point of the sail which fastens to the spreader sew a belt buckle, and near the end of the spreader tack a piece of a strap. Then the sail can be pulled taut and buckled to the spreader. If you cannot find a buckle, you can fasten a rope to the corner of the sail and tie it to a nail driven into the end of the spreader, which will serve the purpose if you tie a knot that will not slip and yet be easy to untie. In using this sail the spar C is held with one hand and the spreader grasped with the other, in much the same way as the square-shaped sail is held (Fig. 1), and spar C is supported upon the shoulder. The sail is shifted from shoulder to shoulder and the hand holds reversed, with a change in the direction of sailing, according to which way the wind is coming from.

(Copyright, 1912, by A. Neely Hall.)

BEST EXPRESSION OF THANKS

Live Joyously and Genuinely, Says One Who Dislikes Formal Phrases of Gratitude.

The best possible method of giving thanks for the blessings of life is to live joyously and genuinely. When the flowers of spring break forth in their simple beauty because of the sun's rays they make the response of gratitude. When human beings expand in the richness and geniality of warm hearts and sincere desires they, too, are showing the supremest gratitude. The sparkling air of a frosty fall day makes one "feel good," but "feeling good" is nothing else than a grateful recognition of the atmospheric stimulus felt in the blood.

It may be that formal phrases of gratitude are not spoken as readily as in earlier days. It may even be that there is less informal phrasing of grateful emotions than there was when life was less complex and disturbed. Quantitative comparisons of emotions are hard to make and sure to be inaccurate. Who shall say that there is less genial and joyous living today, or a more sluggish response to the warning spirit of fellowship? Mere laughing does not signify happiness, nor does the eager pursuit of commercialized amusements mean true joyousness. But the judgment of the capacity of humanity for thankfulness must be based on wider evidence than the wretchedness wrought by crime and poverty, or the cynical pessimism of those who have been cheated in life's game, or the unhappy restlessness of the wanderers in a great city.—Edward H. Chandler, in Boston Globe.

Instrument for Analyzing Gases.

By the use of a new German instrument, which takes the index of refraction of mixed gases, Haber and Lowe are able to find the amount of carbon dioxide and methane contained in mine gases. The method is also useful in many other cases, such as for benzol vapors in the gas distilled by gas or coke plants, also sulphurous anhydride in the gases coming from pyrites roasting, as well as percentages of ozone in the air. They are also able to check the purity of hydrogen made by the electrolytic process, observe the gases in human breath and carry out other very useful tests.

Appeal for Aviation in England.

Owing to the success which the public subscriptions are having in France for the purchase of aeroplanes for the army and the poor results coming from a like subscription opened in England for two months past, Major General Arbuthnot, who is president of the British Aerial League, has addressed a new appeal to patriotic sentiment in favor of military aviation in England.

FIG. 1

from raveling. Tack the top and bottom edges to spars A (Fig. 3). Drive a nail into each end of the spars and the spreader, and drive two nails into the spreader about 6 inches from the ends (Fig. 4), and one into spars A at their centers (Fig. 3). The rope stays are fastened to these nails. Tie one rope to the center nails in spars A (Fig. 3) and another piece to each of the end nails in spreader B (Fig. 4). In fastening the sail to the spreader first tie the ropes on spars A to the nails on the side of the spreader, then run the ropes on the spreader end to the nails on the ends of spars A, and tie them. The hand straps sewed to the face of the sail cloth can be made of braid or pieces of cloth folded into several thicknesses.

Fig. 1 shows the method of holding the sail when the wind is from in back of you. The left hand grasps the spreader B, and the right hand extended spreads out the sail sideways by means of the strap. The sail can be lifted around to either side, and the positions of the hands reversed, according to whichever direction the wind is blowing from, in the same way that you would handle the sail of a sailboat.

The three-cornered sail shown in Fig. 5 requires two spars—C, 5 feet long, and D, 3 feet 4 inches long. The end of the spreader spar (D) slips into a socket on spar C, and by detaching the sail the sticks can be separated and rolled up in the cloth in as compact a form as the other sail. For the connecting socket go to a plumber and get a "T" pipe fitting (Fig. 6). He can probably find one with broken threads about the shop, which will be of no use to him, yet serve your purpose exactly. Cut the vertical spar so the "T" fitting will fit it snugly, and drive the "T" along the spar to its exact center.

The edges of the sail cloth that haven't a selvage should be hemmed, and the corner which is fastened to spreader D should be reinforced with a piece of cloth as indicated by dot-

ENTERPRISE

Ira Berdan made a business trip to Bundy Monday.

Mr. Beddin was a visitor at Berdan's for a few days.

Mr. Sudol, blacksmith at camp 14 has resigned his position and will move to Nashville, where Mr. Sudol has employment.

Alfred Carlson has resigned sailing for Bundy Lbr. Co. in camp 14. He left for Rhinelander Friday.

Mr. Morrill was in town for a few days.

Mr. Havilin has resigned his position as "Walking boss" for Bundy Lbr. Co. Mr. Havilin has worked for the company for a number of years.

MONICO

On Sunday, Feb. 9, Harold Graef and Ethel Pankratz were united as one. The ceremony took place at Rhinelander, Mr. and Mrs. W. Thompson being best man and woman. F. Parsons and daughter Alice, attended.

Regina Miller went to Rhinelander on Saturday.

Rudy Peterson attended to business affairs at the city last Saturday.

On Feb. 8, Mrs. Henry Kesler attended to matters at the probate court. A lawyer from Antigo officiated.

A wreck of a freight train near Pelican Lake delayed the passengers through here last week.

Mrs. Rasmundsen of Summit Lake spent Sunday with her folks at Monico.

Mrs. P. E. Kabel, who has been on the sick list quite a while, is now fully recovered.

Last week, one of Monico's pioneer farmers burnt out. Hank Haver had a neat little house with good furnishings. Fire broke out while no one was at home. It was probably caused by an overheated stove. The barn, which contained a good team of horses, did not burn. However, Hank was undaunted in his efforts to farm and by Monday night had a new and better house in the old one's place. The loss is appropriated at about five hundred dollars.

Lawrence Pennings and Barbara Bauer went to Antigo on Sunday afternoon.

Miss Rose Huva and Jesse Leith returned from Antigo on Saturday. Jesse is attending high school at that city.

Shemman Ware, who is now working at Pelican, paid a short visit here last Thursday.

Wm. Hutchinson made a business trip to Monico on Sunday. Bill is now located at Pelican.

Regina Carley and John Miller celebrated their birthdays at the home of Regina. All the young folks attended and had a very enjoyable time.

On Saturday night, Feb. 15, the U. P. G. C. club shall give a card party. All are invited to come.

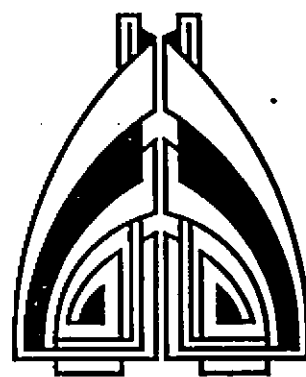

Several Monico people are going to witness the ski tournament at Ironwood on Sunday. It will be a special treat this year, since it is a national tournament.

Cause and Effect.

"Women are not happy because they are good; they are good, capable of expanding to the uttermost, when they are happy."—"Blind Down," by H. A. Vachell.

Fear for Industrial Necessity.

Rauite powder, the chief ingredient in all cutting wheels in cut-glass factories, is found only in Russia and Virginia. The Russian beds, however, are being rapidly depleted. The wheels are made at Niagara Falls. They last only a few weeks.

CARS ARE CLEAN AND SANITARY

North Western Adopts New System For Benefit Of Public Health

Great interest has been awakened, and splendid results are being obtained from the thorough and systematic work which is being carried out under the supervision of the newly appointed Sanitary Inspector of the Chicago and North Western Railroad.

This Company is the pioneer in the matter of installing and carrying out this work on a completely organized plan.

As an indication of the thorough manner in which this movement is being inaugurated, extracts from a letter of instructions, which has been placed in the hands of employees interested is quoted below:

At the final terminal of trains, cars must have all refuse cleaned out of them, being particular to see that any accumulation back of or under steam pipes, and radiators, seats, etc., is removed, and at such terminals, cars given a thorough scrubbing, using disinfectants and deodorants, in accordance with recent instructions. Interiors should be dusted, including seat arm rests, window sills, window glass cleaned inside and out, and not just in the center, but corners as well.

Drinking water tanks are to be cleaned each trip, and thoroughly scalded out so that there will be no question but what same are in sanitary condition. In supplying water, it must be pure and free from deposits of any kind, and the same care exercised with ice, which must be handled with ice tongs at all times.

Outside cleaning must be taken in hand vigorously, and equipment either dry vigorously or scrubbed, according to weather conditions. Platform and platform steps must be scrubbed or swept off before cars are sent out.

The traveling public will no doubt be appreciative of this latest sanitary move which The Northwestern Line has inaugurated as a distinctive feature of its service, and in maintaining its reputation for supplying "The Best of Everything."

POULTRY

SELL ONLY THE FRESH EGGS

Some Farmers Deliberately Impose on Small Merchants by Giving Goods Known to Be Stale.

(By A. G. PHILLIPS, Kansas.)

Selling eggs is one of the handiest ways for the farmer to get a cash or trade return for his produce, during all parts of the year, and if he can increase the efficiency of the machinery which produces and handles these eggs he is putting into his pocket good hard cash.

Almost every housewife who is compelled to buy eggs constantly clamors for some method which she may pursue in order to always get fresh eggs. There is no housewife who has not some time or other had the great displeasure of handling spoiled or rotten eggs. This almost constant occurrence, with the possible exception of the winter months, practically compels those who lecture and carry on experiment station work to plead with the farmers who produce the eggs to put onto the market better produce.

The egg loss each year is enormous and is beyond all reasonable justification, and the blame lies, at least in part, with the farmer for the following two reasons:

First, some few farmers deliberately take to market eggs which they know are not fresh, because they know

Eggs Should Be Packed in Neat Cases.

that the merchant is compelled to take them or lose their trade. Second, and by far the greatest reason, is because of ignorance on the part of the farmer as to what and how to sell eggs.

When the hens on the farm are producing enough eggs to warrant the farmer's taking them to town, arrangements should be made to handle all of them properly. A convenient and clean place should be provided wherein the hens can lay. The natural tendency of a hen is to go off in the weeds and make her nest. This should not be tolerated and any eggs found in such places should be marked and kept at home.

When the clean, fresh eggs are gathered they should be put in a clean, dry, cool place until marketed. Even though the place is clean and cool, if it is not dry, molds, etc., will commence development and the eggs will soon spoil. If the eggs become damp and they happen to be in contact with any colored material they will immediately become stained. Good egg cases in a cool, dry, clean place, kept up off of the floor, make an excellent receptacle in which to keep eggs previous to marketing.

Before these eggs are set aside for market, they should be gone over by the farmer as he collects them, and all small, stained, dirty, doubtful, incubator and rotten eggs should be removed. Small and dirty eggs, if used immediately, are just as good as large clear ones, but they will not sell well on the market, and if sent in with good eggs will spoil the trade. Therefore, they should be kept and used at home. No eggs should be washed, for the packers claim they will not keep well. All eggs from stolen nests, whose freshness is doubtful, and all incubator eggs should either be thrown away, boiled for the little chicks or used at home. They should never be sent to market. Rotten eggs need not be discussed. Any person who will send one to market deserves all the penalty possible from the pure-food law.

When eggs have been properly gathered, handled and kept previous to taking to market, the question of the number of trips to town should be considered. In hot weather the eggs should be marketed two or three times per week, and often if possible. If that number of trips cannot be made, co-operate with a neighbor and have him alternate days in the trips which must be made.

In the fall and spring eggs should be marketed at least once a week. Many buyers have had trouble in November with eggs classed as "held eggs." These are common, because most farmers believe that after frost eggs will not rot so quickly, but nevertheless they do evaporate and the air cells in them show the candler that they are stale.

Therefore, the more often eggs are marketed, the greater are the chances that they will be good.

Make-Up of Broilers.

A broiler should have a good, plump breast, broad back, clean yellow legs and yellow skin, and small comb. Such is the American epicure's ideal but these requirements bar out such breeds as Brahmas, Cochins, Langshans, or any crosses on them, on account of the feathers on their legs. They bar out all white-skinned fowls, and put a damper on all large-comb birds like Leghorns, Minorcas, etc. Such being the case, the Wyandottes have easy selling; and, besides, being quick growers are more desirable for this purpose.

UNCLE TOM'S CABIN

Leon Washburn's Stetson's Uncle Tom's Cabin company will be seen at the Grand Opera House Feb. 27, presenting the everlasting favorite drama, Uncle Tom's Cabin. It will be remembered that in this beautiful play there are moments of the greatest intensity. The company engaged for the presentation has been selected with great care, and an adequate scenic equipment and electrical effects will furnish an admirable background for the excellent performance.

REAL ESTATE TRANSFERS

Following is a list of all real estate conveyances recorded for the week ending Feb. 12th, 1913, furnished by the Oneida County Land & Abstract Company, to-wit:

Herman Helper and wf. to James H. Dalby, W. D. of part of Govt. Lot 2 Sec. 6 23-11 E.—\$290.00.

E. G. Squier and wf. to Porter Foster, W. D. of W. 21 ft. of Lot 1 in Brown's Subdivision of Plk. 13, Original Plat of Rhineland.—\$1.00.

Jeremiah Driscoll and wf. to Wm. A. Hubbard, Q. C. D. of part of SE SW Sec. 5-36-9 E.—\$1.00.

Alice Stapleton to Wm. A. Hubbard, Q. C. D. of part of SE SW Sec. 5-36-9 E.—\$1.00.

Edna Lintula, Adm. of Est. of Nico H. Lintula, to H. H. Stolle, Executor's Deed of SE SE Sec. 32-36-4 E.—\$100.00.

E. C. Crawford and wf. to Luther Davis, Q. C. D. of about 460 acres in 37-4 E., 37-5 E., and 35-10 E.—\$1.

Christian Lund to Christina Lund his wife, Q. C. D. of Lot 4 Blk. 6 of Alban's Add. to Rhineland.—\$1.

Frank Van Keuren and wf. to Clara E. Allen, W. D. of SW SW Sec. 19-36-4 E.—\$300.00.

George M. Deakin and wf. to A. J. Kimber, W. D. of Lot 10 Blk. 8 of Cohn, Birg & Sillmer's First Add. to Rhineland.—\$1.00.

AFTER SKIING HONORS

For several years past Hartvig Jeannot, who has a barber shop in the Tremont House on Thayer street, and Hans Rodd, of the firm of Rodd & Wold, have been endeavoring to out do each other as ski riders. A strong rivalry exists between these two contestants for skiing honors and they have agreed to settle for all time the question of supremacy at the Ironwood tournament. They will do their various stunts before a committee of competent judges who will decide the one entitled to the leather medal. Hans is confident of winning out—so is Hartvig and their contest promises to be one of the big features of the tournament.

UNCLE TOM'S CABIN

The presentation of Leon Washburn's famous Stetson's Uncle Tom's Cabin, at the Grand Opera House Feb. 27, will be complete to the minutest detail and will be of the best all round performance of the great play that local theater-goers have ever had an opportunity of witnessing.

Cats Killed for Pelts?

Thirty cats kept by the Paris custom house authorities to destroy the rats, which do great damage to the goods, appeared mysteriously a few nights ago. It is thought they were killed for their pelts on account of the demand for the market prices of skins which are used in the manufacture of fashionable furs.

Next Track of Food Consumed.

It is of course easy to estimate the amount of food consumed by each of us in a year, but our dietetic expert who kept a record of his meals during twelve months declares that he ate 240 pounds of bread, 150 pounds of meat, drank 61 1/2 tons of milk, and ate no fewer than 20 eggs, in addition to other things—London Titbits.

Away From Dust of Autos.

The increase of motoring and the consequent increase of dust have, to some considerable extent, changed the value of villa and hotel sites in visitors' resorts. The choice, especially in the south of France and Italy, is now much in favor of houses well away from the main road, and even well outside towns.

Only Country Without Typewriters. Typewriters are now made for use in nearly a hundred different languages, and they are sold all over the world; but there is still one great nation which, for a very simple reason, has no typewriters that write its tongue. That nation is China.

Dr. H. J. Westgate accompanied Mrs. H. E. Schellenger to St. Joseph's hospital in Milwaukee Sunday.
Mrs. J. G. Dunn entertained her card club at her residence on Pelham street Tuesday evening.

Mrs. S. G. Tuttle of Appleton is the guest of her son, Harve Tuttle and family.

Mrs. E. A. Forbes left Monday for an extended visit at her home in Nebraska.

John LaPage, foreman at one of the Brown Bros. Bundy camps, was in the city Wednesday.

M. W. Thatcher of Osceola, auditor for the Osceola Mill & Elevator company, was in the city Tuesday.

Mrs. Ray Denton returned Saturday from a visit in Antigo. She has as her guest Miss Rose Langlois of Madison.

Do you know that Hart is selling ladies' winter coats, the latest patterns, for less than the raw material costs?

The Norwegian Lutheran Missionary Society will meet February 20th at the home of Mrs. Andrew Olson, 511 Mason street.

Alfred Carlson returned Friday from Enterprise where he has been scaling for the Bundy Lumber company.

George Stumpf, who recently returned to Rhinelander from Moose Jaw, Sask., has taken a position as trap drummer at the Bijou.

Mrs. H. E. Schellenger, who has long been in poor health, underwent an operation at St. Joseph's hospital, Milwaukee, Tuesday morning. Late reports from her bed side state that she is on the way to recovery. This was Mrs. Schellenger's fifth operation in three years.

Bill Haney, a popular Soo line engineer on passenger trains 81 and 85, was slightly injured Thursday last when his locomotive ran into a switch engine. The accident occurred as 85 was entering the Minneapolis yards.

Ladies' up-to-the-minute winter coats at prices less than the cost of the material at Hart's.

We have recently added to our line various styles of plaiting which are very much in vogue and the prices are very reasonable. Knife or side plaiting, 1 to 5 inches wide 3c per yard and up according to width; French accordion plaiting, 1 to 6 inches wide 7c per yard and up, for wider widths. Any width plaited up to 75 inches. Also plain tucking at 4c per yard.
Crusoe Needlecraft Shop.

Blisses Mary and Susie Maltz were on the sick list this week.
Miss Bessie Wilson of Redwood, Minn., is a guest at the Rogers and Topping homes in this city.
Miss Ella Braeger entertained a few friends informally at Bridge Tuesday evening, at her home on Grant Street.
Two bad chimney fires, Monday evening, called out both fire companies and kept them busy for some time at the residences of E. H. Rogers and Cyrus Jensen, both on King St. No damage was done.

Here is a message of hope and good cheer from Mrs. C. J. Martin Boone Mill, Va., who is the mother of eighteen children. Mrs. Martin was cured of stomach trouble and constipation by Chamberlain's Tablets after five years of suffering, and now recommends these tablets to the public. Sold by All Dealers.

Mr. and Mrs. Ogermyer and daughter, Miss Bertha, of Merrill, were in the city this week, having been summoned here by the illness of their daughter and sister, Mrs. James Sheehan Jr.

In twenty minutes time Mrs. Jas Sheehan Jr., was operated upon for appendicitis by Drs. Schiek and Elliott at St. Mary's hospital Friday. The patient was very low when placed on the operating table and it was necessary for the surgeons to act quickly. Although scarcely any hope was had for her recovery at the time, Mrs. Sheehan is now gaining steadily and was removed from the hospital to her home Tuesday.

LIBRARY NOTES
The partial list of magazines at the library published last week included those giving the news of the day, the magazines for children and young people, and the popular ones read generally for recreation.
The list this week includes those magazines for practical use.
For carpenters and builders there are the American Carpenter and Builder, Keith's Magazine (two of the best building magazines published) House and Garden, and Craftsman besides departments in other magazines which give drawings and plans for buildings.
For those interested in gardening indoor and out, the House and Garden and Garden Magazine are excellent helps.

The Engineering magazine as the name suggests is for the engineer and those interested in engineering problems. It stands first among the periodicals on engineering.
Popular Mechanics and Popular Electricity contain short popular articles on all phases of applied science of especial interest to untrained men and boys.

The North American Review gives a scholarly review by good authorities of questions of the day, political and economic, and to a more limited extent of historical, literary and scientific matters.

The Survey is devoted to social and political betterment, and to public and private philanthropy.

The magazines particularly for the home, containing fashions, fancy work hints on housekeeping, etc., besides stories, and articles of general interest are the Ladies' Home Journal, Woman's Home Companion, Delicieux, Pictorial Review, Harper's Bazar, Mother's Magazine, Ladies' World, Good Housekeeping. The Modern Priscilla is devoted chiefly to fancy work. Life is the one numerous magazine received.

NEW FICTION—
Spearman, The Mountain Divide.
Altshuler, Guthrie of The Times.
Colcord, The Drifting Diamond.
Lynde, Scientific Sprague.
JUVENILE—
Ray, Nathalie's Sister.
Barbour, Change Signals.
Quirk, The Fourth Down.

Rich, New Spring Dress Materials
Every Color, Every Pattern and Every Weave in Every Effect
This store has always been known as headquarters for the latest in Dress Goods and Silks—but no season have we demonstrated our supreme leadership so clearly as this Spring. Not only are the lines immensely complete, but the variety of materials is greater than ever before, and the value far better. We have gathered together the very richest creations in Whipcords, Panamas, Serges, Diagonals, Storm Serges, Silks, Satins, Messalines, Taffetas and other dress goods so much wanted by fastidious dressers. Every shade, in all the latest weaves and patterns are here. The prices are remarkably low—even lower than before. Just note these excellent numbers:
STORM SERGES in a complete range of new Spring colorings, including cream and black; all wool; 36 inches wide; yard 50c.
50 in. blue serge \$1.00. Heavy blue serge 54 in. wide \$1.50

We wish also to direct your particular notice to the new showing of Laces, Embroideries and insertions that we have collected. All the latest patterns, in the richest designs, in all grades. Never were you asked to look through a larger assortment. Prices that will please.
Corset Cover Embroidery, per yard.....18c
27 in. Flouncing.....35c up to \$1.25
45 in. Flouncing.....65c up to \$2.50 per yard
Kolden Dry Goods Co.

WOODMAN OFFICIAL HAS EXPLANATION
Head Consul of M. W. of A. Says Members Will Decide New Rates Are To Stand

A. R. Talbot, head consul of the Modern Woodmen of America, has written a letter which will be placed in the hands of the membership explaining the executive council's position in deciding to make no further attempt to put the increased rates into effect prior to the session of the head camp in 1914.
The head consul asserts that the executive officers were only doing their duty when they sought to enforce the new rates on the first of the year, in compliance with the action of the head camp, which decided on the new schedule at a special session a year ago in Chicago.
It is now expected that the membership will be divided in their opinions as to the rate question. Some will advocate the adoption of the plans approved by the head camp in Chicago, but others will want the present rates to prevail.

Mr. Talbot says it is his opinion that the members of the executive council believe the supreme court of Illinois will refuse the decree entered by the circuit court of Sangamon county, generally known as the decree of Judge Shirley, and hold that the revisions, as made by the head camp are reasonable and necessary, and that the action taken was authorized by law. It is apparent, however, from what has already been said that it will be only a short time before the reaching of a decision by the supreme court of Illinois and the convening of the 1914 head camp. For this reason, the executive officers do not believe that the society can be bereft by attempting to put the new rates into force, even though the decision of the supreme court would authorize that action, in view of the fact that the head camp of 1914, which would convene shortly after, would have full power to suspend the by-law providing for those rates and adopt an entirely new schedule and classification.

ROOMS TO RENT
Over millinery store next to Hans Anderson's Grocery, Brown Bros. Lumber Co. Phone 328.

Wanted—A light work horse.

W. J. PELONG.
